Getting a License File for LMS

Download and Install LMS

Download LMS from below URL and install:

<https://gofile.me/48I9w/ZePa9uYGI>

You can get file password from me through email or MS Teams.

Getting a Detached License

Step 1

Open the Sentinel HASP Admin Control Center (<http://localhost:1947/>)

The screenshot shows the Gemalto Sentinel Admin Control Center interface. The browser address bar indicates the URL is localhost:1947/_int_/devices.html. The page title is "Sentinel Admin Control Center". On the left, there is a navigation menu with options: Sentinel Keys, Products, Features, Sessions, Update/Attach, Access Log, Configuration, Diagnostics, Help, and About. The main content area displays "Sentinel Keys Available on AfnanAhmad-PC" and a table with the following data:

#	Location	Vendor	Key ID	Key Type	Configuration	Version	Sessions	Actions
1	Local	93921 (93921)	1114603262633428399	HASP SL Legacy	 @ -	7.60	-	Products Features Sessions C2V

At the bottom left, there is a language selection menu with an American flag icon and the text "More Languages ...". At the bottom right, there is a "Help Top" link.

Step 2

Create a file containing the machine identity by clicking **Create File ID** in the Diagnostics page of the HASP License Manager on your machine.

The screenshot shows the Gemalto Sentinel Admin Control Center interface. The page title is "Diagnostics for Sentinel License Manager on AfnanAhmad-PC". The interface includes a sidebar with navigation options like "Options", "Sentinel Keys", "Products", "Features", "Sessions", "Update/Attach", "Access Log", "Configuration", "Diagnostics", "Help", and "About". The main content area displays system information and license manager details. A red circle highlights the "Create ID File" button in the top right corner of the diagnostics section.

License Manager Version	21.1 Build 80248		
Computer Name	AfnanAhmad-PC (PID:31672 on Win64)

Uptime	5 days 18 hours 49 minutes 28 seconds		
Template Sets	_int_		
Current Template	English 11.0 (22 Jan 2018 Build 1)		
Current Usage	0 logins, 0 sessions		
Login Requests	1 (1 peak simultaneous logins)		
Requests	17 local, 0 remote, 17 total		
Data Volume	2,147,190 received, 3,692,325 transmitted		
Errors	0 Key related, 0 in Transport		
Client Threads	1 (5 peak)		
Memory Used	1,891,374 (1,177 blocks)		
Run-time	Run-time Installer	7.81	
	Run-time Package	7.81	

Step 3

Upload your ID file on below URL. I will create a detached license and share an H2R with you.

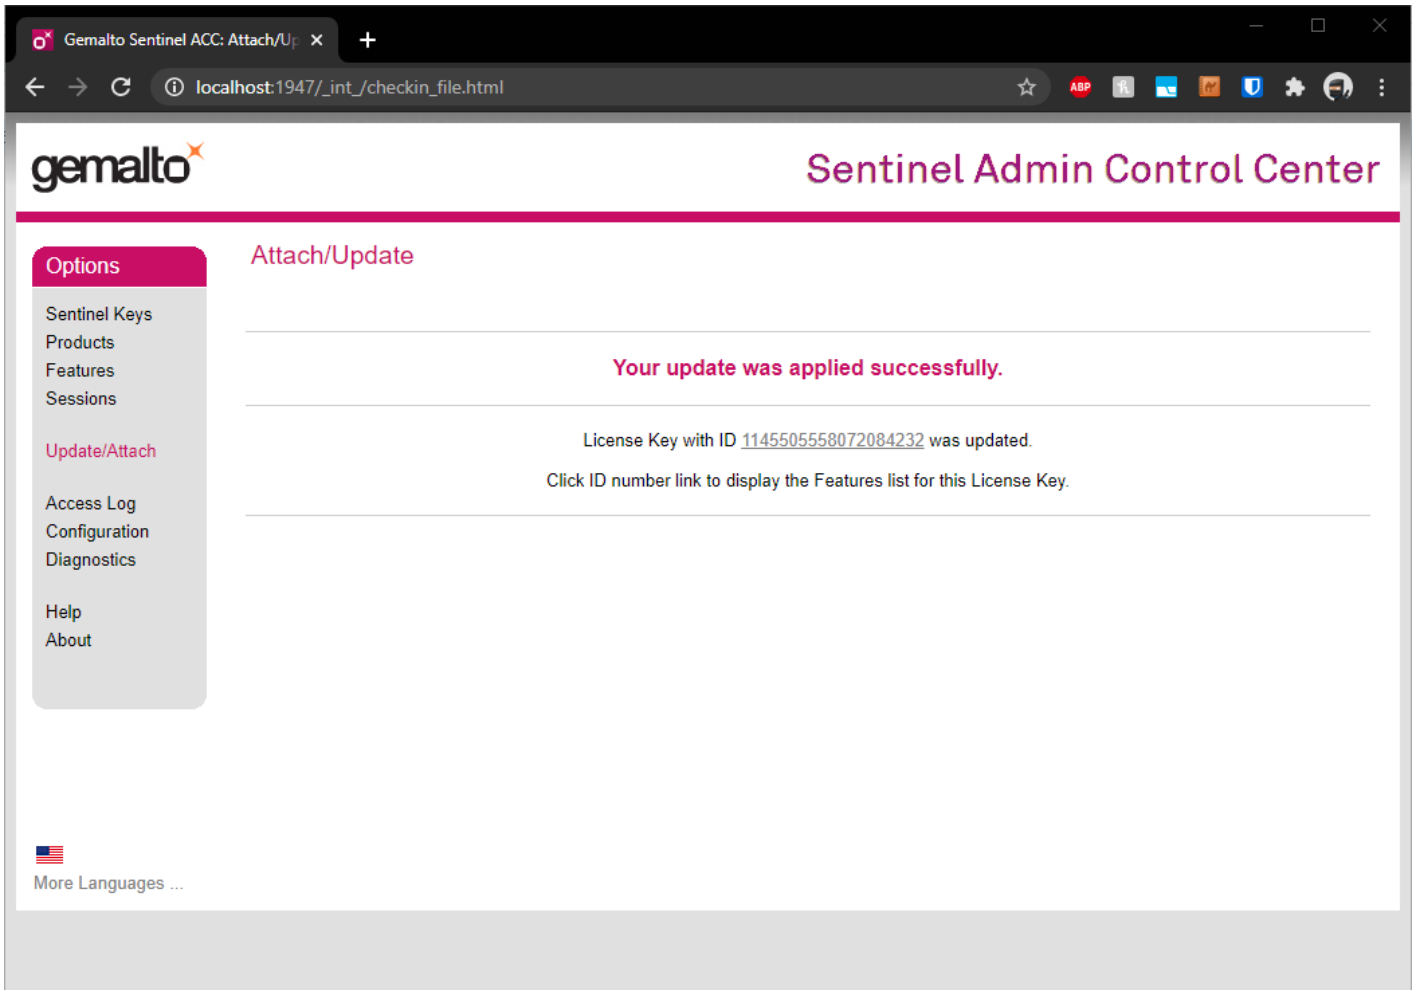

<https://pse312-nas.eng.yorku.ca:5001/sharing/1tEiPTU5e>

Step 4

On the **Update/Attach** panel, hit the **Browse** button and select the file detached license file (H2R file). And hit **Apply File**.

The screenshot shows a web browser window with the address bar displaying 'localhost:1947/_int_/checkin.html'. The page title is 'Sentinel Admin Control Center'. The Gemalto logo is in the top left. A left-hand navigation menu includes 'Options', 'Sentinel Keys', 'Products', 'Features', 'Sessions', 'Update/Attach', 'Access Log', 'Configuration', 'Diagnostics', 'Help', and 'About'. The 'Update/Attach' menu item is highlighted. The main content area is titled 'Update/Attach License to AfnanAhmad-PC'. Under the heading 'Apply File', there is a text prompt 'Select a V2C, V2CP, H2R, R2H, H2H, ALP or ID file:' followed by a 'Choose File' button and the text 'No file chosen'. Below this are 'Apply File' and 'Cancel' buttons. A section titled 'The following file types can be applied:' lists several file types with their descriptions: V2C (license update or firmware update), V2CP (license update package), H2R (detached license), R2H (cancelled detached license), H2H (rehosted protection key), ID (identifiers of the Sentinel License Manager), and ALP (Admin Control Center Language Pack). At the bottom left, there is a US flag icon and the text 'More Languages ...'. At the bottom right, there is a 'Help' link.

If succeeded you will see message like this.

Then you can see LMS in the **Products** panel. After this you can run your LMS program and it should work as intended.

Returning a License

Following are the setups to return an LMS License

- Go to the **Products** page in HASP admin software (<http://localhost:1947/>)
- Click the **Cancel License** on the products lists to the right of the software you want to return (LMS)
- The software will ask for confirmation on the cancelation; say yes
- When requested, save the cancelation file (R2H)
- Email R2H file to aafnan (at) yorku (dot) ca
